

## Membership & Quotas Report – 2009/10 Season

Apr 5, 2010

S. Nickle, Membership Chairperson

**Membership Levels:** 2010 was a year of change for PARA membership. The change to USSA as our on-line membership provider was made for ease of use for our membership and improved membership tracking for those running races. At risk was the overall membership numbers: we hoped that increases of those racers who had “slipped thru the cracks” would off set the loss of non-competitive racers (J7, freestyle) and members-at-large. Economic conditions only heightened our concern.

The risk paid off. We saw an overall 30% growth in membership with 864 racers and 321 officials and our clubs need only confirm the validity of the USSA membership to confirm all have PARA membership as well. [see appendix A detailed stats]. The greatest change by % was in Masters (120%) and Seniors (400%) while in absolute numbers, the J4 increased by 29 (14%).

**Membership Income:** Total income from individual memberships this year was \$33,645, representing an increase of 18.4% from 2009 season. This increase should be viewed as “healthy” growth as it was the first time in 3 years that it was not due to rate increases and was accompanied by an overall decrease in the level of late fees and penalties paid by our membership.

**Looking ahead:** Changes made in 2010 are anticipated to continue to be felt in 2011 with :

- younger, non-racing members not renewing PARA or USSA
- fewer racers missing the October 15<sup>th</sup> renewal deadline

Though negative, neither are expected to significantly impact PARA income

For the 2010/2011 season, USSA will begin to 5% service fees for registration. This fee will be paid out of our membership proceeds. On the basis that we realized double digit income increase in this past year, we have opted to not pass this cost on to our membership for this coming year but instead, closely monitor membership levels and income to evaluate potential change of service provider or membership cost in subsequent years. As for the fee rate, 5% is less than competitive providers charge and none can provide the tracking to USSA membership our current arrangement has.

Two topics are warrant discussion at this year’s annual meeting:

- AO membership without renewal of USSA membership.

- today officials and competitors are handled in the same way: PARA and USSA membership are tied and renewal of one causes renewal of the other.

For volunteer members, such as regional directors, who have limited on-hill involvement, the USSA membership is a significant added expense. Can and do we want to provide mail-in service to renew PARA membership alone for AO members?

- Freestyle competitors membership & PARA

- Freestyle is a recognized and growing discipline in USSA and within Pennsylvania ski clubs yet there is no state level organization to support these kids. We turned down membership payments by a number of WPRC freestyle competitors this year. Is there a future plan for PARA to provide a competitive outlet for kids in this region?

**Communications** Membership listings were issued to club directors and posted to the PARA website\*:  
- Nov 1/09  
- Dec 1/09  
- Jan 20/10

\* Addresses & phone numbers were withheld from lists published to the PARA website.

**2010 Issues**

Early memberships for LMRT racers did not link to PARA memberships.  
- caught mid-season and resolved by USSA

Foreign citizens cannot use USSA to renew PARA membership

- ongoing limitation. USSA software does not permit regional/state membership.
- Renewal is done via mail-in form to PARA Membership.

PARA membership status not shown on the USSA membership card

- PARA membership is assumed if not marked due to the USSA programming.
- Corrected March 2010 by USSA

**Performance on  
2009 reported  
problems**

1. PARA region declaration errors:  
PARA region was identified by the race club affiliation. Only those racing as an independent required follow-up to define club. If Shawnee becomes a PARA club for 2011, further improvements will be seen.
2. Multiple membership renewals.  
No membership refunds were due to duplicate renewals.
3. Members with USSA "FC" membership.  
For 2009, we allowed "FC" (Freestyle competitor) to suffice for USSA membership; for 2010, PARA did not renew memberships for Freestyle competitors as we do currently not provide services to this group.

Respectfully submitted,  
Sheila Nickle  
Membership and Quotas Chairperson
